

Program Director, Cardiac Care

ABOUT LHSC:

Trust, Respect & Collaboration

London Health Sciences Centre (LHSC) is one of Canada's largest acute-care teaching hospitals and is dedicated to excellence in patient care, teaching and research. LHSC has pioneered many national and international medical breakthroughs. Located in London, Ontario, LHSC encompasses three hospital sites; South Street Hospital, University Hospital and Victoria Hospital; two family medical centres; and the London Regional Cancer Program. LHSC is the home of the Children's Hospital and CSTAR (Canadian Surgical Technologies & Advanced Robotics). The research arm of LHSC is Lawson Health Research Institute, which is partnered with London's other teaching hospital, St. Joseph's Health Care, London. LHSC is affiliated with The University of Western Ontario. Physicians and staff at LHSC number more than 10,000 and together provide care for more than 1 million patients each year.

Situated in beautiful London, Ontario, the "Forest City", LHSC offers its staff and physicians the benefits of working at a leading edge healthcare facility combined with the advantages of modern suburban living. London is located in the heart of Southwestern Ontario, a short drive to sandy beaches, the renowned Stratford Festival, and the Greater Toronto Area.

WE TAKE PRIDE IN OUR CARDIAC CARE PROGRAM

The Cardiac Care Program provides exemplary care for cardiac patients requiring cardiac diagnosis and treatment including heart surgery, state of the art cardiac interventions in the cardiac cath lab and arrhythmia areas delivered in a cohesive, cooperative and integrated manner. Our research-based best practices and technologies ensure patients receive the newest treatments, medications and procedures available.

ABOUT THE PROGRAM DIRECTOR:

If you are inspired by a dynamic environment that blends leading edge technology with compassionate patient and family centred care, this is your opportunity to lead multidisciplinary teams as the Program Director, Cardiac Care in this regional tertiary referral centre. These dedicated teams focus on continuous improvement impacting patients' experiences and health outcomes. You will be accountable for managing this \$45 million budget and inspire more than 360 FTEs. Working in collaboration with physician leaders and reporting to the Integrated Vice President Surgery Services, you can make a difference utilizing your demonstrated values-based leadership skills and your inspiration for continuous improvement and evidence-based practice. In addition to your exceptional interpersonal & communication skills, you bring with you a track record of developing and sustaining healthy work environments, effective teams and a performance-driven culture. You motivate others for greater performance excellence and manage competing demands in a fast-paced multi-site environment.

You will have a Masters degree in health administration, nursing or a related curriculum that emphasizes research uptake and participation in research and the development of new knowledge. You will have eight years of progressive management experience in an acute care hospital setting with a firm grounding in human resources management and emotional intelligence. Along with your business expertise, fiscal management, project and planning management you will also have a clinical background in Cardiac Care.

OUR PROGRAM AND OUR CARE
