## Student Oral and Poster Presentation Award Guidelines

Students are invited to submit their abstract for consideration of an **oral or poster presentation** award at the CCCN Scientific Annual Meeting. Each award recognizes excellence in a clinical or research presentation. Successful candidates will be awarded a free membership for the next year and a certificate of achievement. To be eligible for an oral or a poster presentation award:

1. The presentation has to be based on work completed as a student and related to the student's program of study,
2. The presentation must be made within one year of graduation,
3. The student must be the lead- or co-author, and also must be the presenting author at the CCCN National Scientific Session,
4. The student must submit an article of the presented work for publication in the Canadian Journal of Cardiovascular Nursing within one year of receipt of award, and
5. The student must be a current member of CCCN.

**Note:** In the event that a student has more than one abstract accepted, he/she must indicate their preferred presentation for award consideration.
